STANISLAV HOHULIA

FULL-STACK DEVELOPER

I'm a full-stack developer with HTML, CSS, TypeScript, React, Vue, and Node.js, Express.js, MongoDB skills. My technical education (Software Engineering) provides a strong foundation in software development. Active social activities, including my role as Head of the Student Council, have developed strong communication skills and teamwork experience. I speak English at a level sufficient to read documentation, write comments, and have basic team communication.

WORK EXPERIENCE

Full Stack Developer, May 2024 - Present

- Developed responsive user interfaces using Vue, React, HTML, CSS (BEM), and TypeScript, ensuring seamless performance across multiple devices.
- Designed and integrated RESTful APIs with Node.js and Express, ensuring fast and reliable data exchange between client and server.
- Secured user data storage (e.g., MongoDB in Filmtracker) to enable seamless cross-device access.
- Improved application load time by 30% through code refactoring and implementing lazy loading techniques in React, resulting in enhanced user retention.
- Developed advanced state management solutions using Redux Toolkit and Pinia, reducing code duplication by up to 10% and improving maintainability.
- Implemented WCAG accessibility standards across web applications, ensuring that products are inclusive for all users.

SKILLS

TECHNICAL

Typescript, JavaScript, Node.js

React, Redux, React Native

Express.js, Axios, MongoDB

Vue3(Composition Api), Pinia

HTML5, CSS3, Sass (SCSS), BEM

Docker, Git , Eslint, Prettier

PERSONAL

Knowledge of SDLC and Agile concepts

Code Reviews & Best Practices

Canva, basic Photoshop, and Figma knowledge

English B1

EDUCATION

BACHELOR'S

Kyiv Aviation Institute
Software engineering
2022 - 2026

HEAD OF THE STUDENT COUNCIL

Sep 2023 – Sep 2024

Collected over UAH 25000 in contributions

Created and deployed 2 telegram bots

Resumed the ecological sorting project

SELF-EDUCATION

MATE ACADEMY

Full-stack course (Git, HTML, CSS, JavaScript, Typescript, React, Vue)

GENESIS

Internship online course "Creation and Development of IT Products"

BOOK

The Mythical Man-Month: Essays on Software Engineering

SHOWCASE

PORTFOLIO:

FilmTracker– Node.js + React personal movie collection

Project Flow - a Project Management SPA with Vue3

Phone Catalog - an online electronics store with React

ACHIEVEMENTS

Winner of Olympiads in physicists, computer scientists, and maths

Took 2nd place in regional orienteering competitions
